SOIC Regional Economic Indicators:

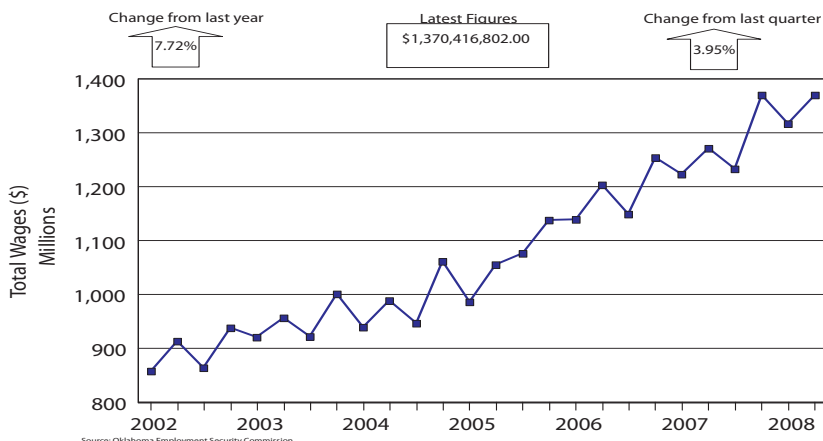

Total Wages

Center for Economic & Business Development

To preserve the anonymity of establishments, the Bureau of Labor Statistics withholds publication of data for any geographic industry level in which there are fewer than three firms, or in which the employment of a single firm accounts for over 80% of the industry.¹ Because the CEBD is reporting the information over a 20 county region rather than individual counties, the SOIC region will include the nondisclosable data beginning in 1st Qtr 2006. However, sectors 51 and 55 have gone back and are now reporting the nondisclosed data beginning in 1st Qtr 2002. It is important to remember that these totals cannot be used to reveal the suppressed data. For a detailed definition of the NAICS codes, please refer to pages 12 - 13.

March 2009
