SOIC Regional Economic Indicators:

Total Employment

C e n t e r f o r E c o n o m i c & B u s i n e s s D e v e l o p m e n t

To preserve the anonymity of establishments, the Bureau of Labor Statistics withholds publication of data for any geographic industry level in which there are fewer than three firms, or in which the employment of a single firm accounts for over 80% of the industry.¹ Because the CEBD is reporting the information over a 20 county region rather than individual counties, the SOIC region will include the nondisclosable data beginning in 1st Qtr 2006. However, sectors 51 and 55 have gone back and are now reporting the nondisclosed data beginning in 1st Qtr 2002. It is important to remember that these totals cannot be used to reveal the suppressed data. For a detailed definition of the NAICS codes, please refer to pages 12 - 13.

Chart 1: Total Employment

Fourteen of the twenty business sectors in the SOIC region contributed to the total regional employment increase in 3rd Qtr 2007 from the previous year. Total regional employment increased 2.44% (3,872 jobs) between 3rd Qtr 2006 and 3rd Qtr 2007, of which the Arts, Entertainment, and Recreation sector managed the greatest percentage gain (20.21% or 608 jobs). This was followed by the Administrative, Support, Waste Management, and Remediation Service sector (11.07% or 675 jobs) and the Transportation and Warehousing sector (8.76% or 488 jobs). Over the past quarter, total regional employment decreased 1.62% (2,687 jobs).
