

Imation Corp. is a global company widely recognized as a leader in the development, manufacture, and sale of removable magnetic and optical data storage recording media. Imation is investing up to \$49 million over the next two years into our Weatherford, OK, manufacturing plant to solidify our manufacturing position in future generation tape formats. The new 40,000 square-foot facility in Weatherford is an expansion on the current ISO 9002-certified magnetic media coating facility and we are recruiting proactive and highly motivated people to join our growing team!

MAINTENANCE SUPERVISOR, Req #67115

This position will establish department and individual employee objectives to maximize reliability and runtime of a 24-hour production operation and to meet the site manufacturing goals for product quality, productivity, costs and customer service; foster a safe work environment; and plan & direct Preventive & Predictive Maintenance activities. 2 or 4 year technology degree and 3-5 years previous maintenance supervisor experience required.

SHIFT SUPERVISOR, Req #67117

Provide leadership and direction for the production operations to achieve production goals of product quality, safety, productivity, costs and customer requirements. Bachelor's degree and 3-5 years supervisory experience in a manufacturing environment are preferred. Must be able to work rotating shifts.

MANUFACTURING MAINTENANCE TECHNICIAN, Req #67076

This position involves troubleshooting, repairing, programming, modifying, and calibration of complex industrial manufacturing equipment in a solution preparation (dispersion preparation) environment. Qualified applicants must have strong mechanical, electrical, and control systems backgrounds with a solid problem solving methodology. Excellent communication and team work skills are required. Candidates must have a 2 or 4 year technology degree or equivalent experience. Must be able to work rotating shifts.

INDUSTRIAL HVAC & FACILITIES MAINTENANCE, Req # 67127

This position has responsibility for continuous improvement and maintenance of facilities systems including: industrial HVAC, steam, chilled water, compressed air, fire protection, and other systems as required. This position will work as part of the facilities maintenance organization and will have interaction with contractors. Applicants should have a broad background in facilities maintenance, with 3+ years experience in commercial HVAC preferred. HVAC certification is required.

Imation offers an excellent benefits package. Starting salaries will be commensurate with education and experience.
